THOUGHT OF THE DAY

When you are overwhelmed with thoughts in your mind,
then you should get busy with physical activity.

It will bring co-ordination between
the body and mind.

Sitting idle with a mind full of thoughts
can be a dangerous thing.

YOU'RE THE BEST

**UNION CABINET
APPROVES INDIAN SPACE
POLICY, 2023**

⇒ ISP, 2023

The Union Government of India has recently approved the Indian Space Policy 2023, which aims to enhance the role of the Department of Space and boost the activities of the Indian Space Research Organisation (ISRO). This policy is a significant step towards strengthening India's space sector and achieving self-reliance in space technology.

भारत की केंद्र सरकार ने हाल ही में भारतीय अंतरिक्ष नीति 2023 को मंजूरी दी है, जिसका उद्देश्य अंतरिक्ष विभाग की भूमिका को बढ़ाना और भारतीय अंतरिक्ष अनुसंधान संगठन (ISRO) की गतिविधियों को बढ़ावा देना है। यह नीति भारत के अंतरिक्ष क्षेत्र को मजबूत करने और अंतरिक्ष प्रौद्योगिकी में आत्मनिर्भरता हासिल करने की दिशा में एक महत्वपूर्ण कदम है।

About Indian Space Policy 2023:

Its aim is to boost the country's space department's role and give a larger participation to research, academia, startups, and industry.

Chennai to host Street Child Cricket World Cup

The Hindu Bureau

CHENNAI

Chennai has always welcomed cricket with open arms, and has played the perfect host to several national and international tournaments. Come September, Chennai will witness another cricket tournament, but one with a difference – the Street Child Cricket World Cup 2023.

Organised by Street Child United in partnership with Shree Dayaa Foundation, the tournament will take place at Amir Mahal, the official residence of the Nawab of Arcot from September 20 to 30. This is the second edition of the Street Child Cricket World Cup, and the

tournament is envisioned as a platform for street children to not just showcase their sporting talent, but to also advocate for their rights. While lots of cricketing action is in store through the T20-style tournament, the World Cup

will see art workshops as well as other child-friendly sessions in which 168 street children from 15 countries will participate.

“A tournament like this gives street children across the world an opportunity to represent their country,

showcase their talents, and engage in discussions to learn about the concerns they all face. Protection is usually the first demand that these children have, followed by access to necessities including identity documents,” said Paul Sunder Singh, director, Karunalaya, a Chennai-based NGO working with street children. Four children from Karunalaya were a part of Team India South which won the inaugural Street Child Cricket World Cup, hosted at Lord’s Cricket Ground, London in 2019.

National mixed teams of boys and girls will represent their countries for the cricket tournament and this includes teams from Bangladesh, Brazil, Burun-

di, England, Hungary, Mauritius, Mexico, Nepal, Rwanda, South Africa, Tanzania, Uganda, Sri Lanka, and Zimbabwe. Seven Indian teams representing different organisations from across the country will also participate.

John Wroe, co-founder and CEO of Street Child United, said that they were happy to partner with Latha Rajinikanth’s Shree Dayaa Foundation for the event, and are also working with the support of Nawabzada Mohammed Asif, Dewan to the Prince of Arcot, Oliver Ballhatchet MBE, British Deputy High Commissioner in Chennai, and the NGO Save The Children-India which will be facilitating their advocacy work.

Country's first 3D-printed post office coming up in Bengaluru

EXPRESS NEWS SERVICE
BENGALURU, APRIL 8

BENGALURU WILL soon have India's first post office constructed using 3D printing technology. The project at Cambridge Layout in Ulsoor is being implemented by Larsen & Toubro, which has experience in constructing 3D-printed buildings.

According to S Rajendra Kumar, chief postmaster general of the Karnataka circle, the Ulsoor Bazaar post office is being relocated to Cambridge Layout with the aim to reduce the construction cost. The 1,100 sqft building is expected to cost 30-40 per cent less than conventional buildings because of the technological intervention. The

post office is being built at a cost of Rs 23 lakh.

"Primarily, we are looking at building post offices with low-cost construction options using 3D printing technology. We feel this is the technology for the future; it may trigger interest in low-cost housing, which is our secondary interest," Kumar told *The Sunday Express*. "While the basic structure is expected to be completed in 15 days, the construction of the whole building will take about a month. However, we have not asked the builders to rush the construction."

Residents of the city are delighted to see the construction of the building. "Look ma, they are 3D printing a building outside my house!" read the caption of a viral

video, tweeted by a resident, Marisha Thakur.

Karnataka's postal department is also mulling constructing post offices in 400 locations where postal services are not accessible. "We are gaining experience with the current project using 3D printing technology. I will submit a report to the headquarters and later we will come out with a standard output. We may go for the construction of other post office buildings based on the report," said Kumar.

The department has also engaged a technical expert from IIT-Madras to monitor the building construction. "I think technological interventions in the postal department can help trigger the startup ecosystem to come up with such projects," Kumar said.
