MOST EXPECTED

DAY-7

LIVE

10:30 AM

Directions (1-5): In the following question, a sentence is given which may or may not be grammatically correct. Find out the part of the sentence which has a grammatical error and mark your answer accordingly. If all the parts are correct, mark your answer (5) i.e., No error.

Spelling Error.

QUESTION 1

0:30

Plural Term. = Verb (Plural)

Individuals often identify risks (1)/ that are readily perceptible—whether (2)/ because of personal exposure, media coverage, (3)/ or both—as the most threatening. (4)/ No Error (5)

Options

QUESTION 2

have 0:30

Risk = has / have

Risks = has / have

We have known for years that the risks (1)/
of global pandemics has been increasing,
(2)/ with the potential for major disruptions
(3)/ across the global economy. (4)/ No
Error (5)

Plural

QUESTION 3

0:30

also.

but
~~rather~~ → Contrast

It brings with it issues not only of cultural and (1) / managerial alterations, but ~~rather~~ various financial conflicts, (2) / such as internal disputes between the banks (3) / that could affect lending as well as recovery. (4) / No error (5)

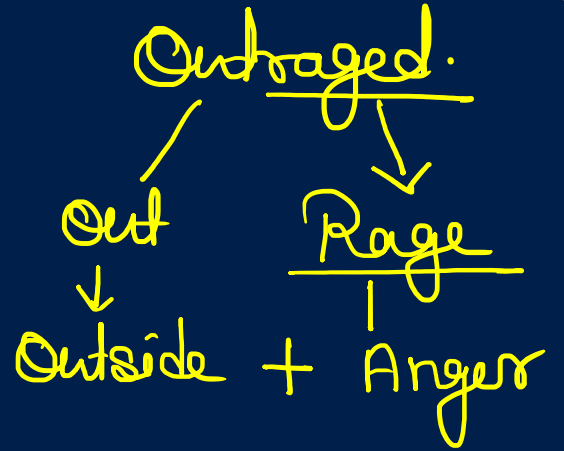

Co-relative Conj → Not only - but also

QUESTION 4

0:30

Whenever there will be a verb after a relative pronoun - it must be

~~Sub~~ Outraged lawyers whom (1) / were witness to (2) / the bizarre happening (3) / complained to the court (4) / No Error (5)

Related to the antecedent.

who

Option 1

	L	NL
S	who	which
S	whom	what
P	whose	

QUESTION 5

0:30

Rule → Use any one of the following with a comparative degree.

Sometimes it seems (1) like coming up with a good idea (2) for a paper is more challenging (3) ~~of~~ the actual research and writing. (4) No error (5).

- ~~a) than / Compared~~
- b) the of

He is the better of the ^{than.} ~~tree~~ student.

Directions (6-10): In the question given below
there is a sentence in which one part is given in
bold. The part given in bold, may or may not be
grammatically correct. Choose the best alternative
among the four given which can replace the part
in bold to make the sentence grammatically
correct. If the part given in bold is already correct
and does not require any replacement choose
option (e), i.e. "No replacement required" as your
answer.

Phrase Replacement.

QUESTION 6

The plastic ban introduced by the municipality has been a total failure as there **has been no reducing** in the usage of polybags.

- (a) is no reduce
- (b) has been no reduction
- (c) have been no reduced
- (d) is not any reduced
- (e) No correction required

After a worrying pre-monsoon phase between March and May, when rainfall was scarce, the current robust season in most parts of coastal, western and central India augurs well for the entire economy. Aided apparently by beneficial conditions in the Indian Ocean, very heavy rainfall has been recorded, notably in Maharashtra, Gujarat, Rajasthan, the northeastern States, Karnataka, the Konkan coast, hilly districts of Kerala and Tamil Nadu. This pattern may extend into Chhattisgarh, Odisha, Bengal and other eastern regions. A normal Indian Summer Monsoon is bountiful overall, but as last year's flooding in Kerala, and the Chennai catastrophe of 2015 showed, there can be a terrible cost in terms of lives and property lost, and people displaced. Distressing scenes of death and destruction are again being witnessed.

Mahendra's

FOR MORE DISCOUNT VISIT www.mahendras.org & USE PROMO CODE : E08717

Even in a rain-shadow region such as Coimbatore in Tamil Nadu, the collapse of a railway parcel office after a downpour has led to avoidable deaths. What this underscores is the need to prepare for the rainy season with harvesting measures, as advocated by the Centre's Jal Shakti Abhiyan, and a safety audit of structures, particularly those used by the official agencies. In drafting their management plans, States must be aware of the scientific consensus: that future rain spells may be short, often unpredictable and very heavy influenced by a changing climate. They need to invest in reliable infrastructure to mitigate the impact of flooding and avert disasters that could have global consequences in an integrated economy.

The long-term trends for flood impact in India have been one of declining loss of lives and cattle since the decadal high of 1971-80, but rising absolute economic losses, though not as a share of GDP. It is important, therefore, to increase resilience through planning, especially in cities and towns which are expanding steadily. Orderly urban development is critical for sustainability, as the mega flood disasters in Mumbai and Chennai witnessed in this century make clear. It is worth pointing out that the response of State governments to the imperative is tardy and even indifferent. They are hesitant to act against encroachment of lake catchments, river courses and floodplains. The extreme distress in Chennai, for instance, has not persuaded the State government against allowing structures such as a police station being constructed on a lake bed, after reclassification of land.

Mahendra's

FOR MORE DISCOUNT VISIT www.mahendras.org & USE PROMO CODE : E08717

Granting such permissions is an abdication of responsibility and a violation of National Disaster Management Authority Guidelines to prevent urban flooding. As a nation that is set to become the most populous in less than a decade, India must address its crippling cycles of drought and flood with redoubled vigour. Scientific hydrology, coupled with the traditional wisdom of saving water through large innovative structures, will mitigate floods and help communities prosper.

QUESTION 26

80 HW

0:30

Which among the following is correct regarding the impact of flood in India over the years starting from 1970s?

- A. The loss of lives has decreased in these years but the economic losses have increased manifold in this duration.
- B. The losses have quantified because of the fact that the population of the country is also on the rise.
- C. There is no information available in the government how the figures have redeveloped in all these years.
- D. This should be understood without concern that it has to be quantified with so many things underconsideration.
- E. None of the above

QUESTION 27

Which among the following is correct regarding the response of the states to the need to tackle flood situations?

0:30

- A. The state governments have taken all the necessary measures in order to ensure that nothing happens.
- B. The state governments have understood the importance of flood related losses though they see every year the opposite of the same.
- C. The governments should ensure that the central government comes to the rescue and gives them enough funds.
- D. The governments at the state level have failed to do enough to control the flood related damages within their areas.
- E. None of the above

QUESTION 28

Which among the following is correct regarding the pattern of rainfall in the future as declared by the scientific community?

0:30

- A. The rains will be very much severe in nature and all the areas will go under the water in no time.
- B. The rains will see a very dry spell though in some areas the case will not be the same any more.
- C. The rains in India will not suffer any change in the pattern though others will not understand the fact.
- D. The rainfall in the future is going to be very much irregular and it is not going to follow a predicted pattern.
- E. None of the above

QUESTION 29

Which among the following gives us the correct picture of monsoon in the current year as stated in the passage?

0:30

- A. There will be too much monsoon in the country though some of the areas will not get any kind of rainfall.
- B. There will be enough rainfall in almost all the areas of the country though the starting was not like this to the monsoon.
- C. There will not be rainfall at all in the country in the coming ten years because of the changing climate.
- D. There will be drought everywhere in India this year though the next year is going to be completely different.
- E. None of the above

QUESTION 30

Which among the following is/are correct according to the information given in the passage?

0:30

- I. The National Disaster Management Authority Guidelines prevent the government to give permission to construct something by changing the nature of the land.
- II. Chennai administration is not at all interested in taking preventive measures to control flood in the city.
- III. There have been too many encroachments in the river bed areas in various cities across the country.

A. Both I and II
C. Both I and III

B. Both II and III
D. All I, II and III **E. Only III**
