SO IT'S TIME

Let's start

ARTICLE

July wholesale inflation slows to 13.9%
WPI based inflation eases below 14% for the first time since February; diesel inflation zooms to 72.4%

Stubbornly high: This is the 16th straight month WPI inflation has been above 10%. ■ SUSHIL KUMAR VERMA

ARTICLE

Wholesale price inflation moderated to a five month low of 13.93% in July from 15.18% in June, **driven by** a lower pace of price gains in primary products, food items and **manufactured products**, even though fuel and power inflation **resurged** to 43.75% last month, from June's 40.38%. While this was the 16th month in a row that wholesale inflation was above 10%, the reading marked the first **dip** below 14%plus levels since February. The Commerce and Industry Ministry also **revised** May's inflation **upwards** to a fresh high of 16.63%, from the earlier **estimated** record of 15.88%. Despite the paring of the headline inflation rate, the Wholesale Price **Index** (WPI) dropped only 0.13% on a month on month basis between June and July, as fuel and power inflation jumped 6.56% **sequentially**, offsetting the moderation in other categories.

ARTICLE

Within fuel and power, diesel inflation **soared** again to hit 72.4%, from a four month low of 54.9% in June. Petrol moderated **marginally** from 57.8% to 55.3%. The pace of price rise in LPG **eased** to 32% from 53.2% in June. “Inflation in July, 2022 is primarily **contributed** by rise in prices of mineral oils, food articles, crude petroleum & natural gas, basic metals, electricity, chemicals & chemical products, food products etc. as compared to the corresponding month of the previous year,” noted the Department for Promotion of Industry and Internal Trade in the Commerce Ministry.

Pace slows for food items

The pace of wholesale price rise in food items dropped from 12.41% in June to 9.41% in July.

ARTICLE

This was led by a sharp drop in vegetable inflation to 18.25%, the lowest rate in at least six months, and less than a third of the 56.75% recorded in June. Inflation in milk dropped to a four month low of 5.45%, while eggs, meat and fish prices rose at the slowest pace in three months at 5.55%. However, **cereals** (9.76%), potato (53.5%), fruits (29.44%) and **paddy** (3.1%) hit their highest level of inflation in at least six months. Wheat inflation hit a four month high of 13.61%, from 10.34% in June.
