SO IT'S TIME

Let's start

ARTICLE

Retail inflation quickens to an almost eight-year high at 7.8%

Accelerating rates | India recorded an inflation of 7.79% in April 2022, which is the highest since May 2014. It has stayed above the RBI's tolerance threshold of 6% for the fourth consecutive month

ARTICLE

Inflation faced by Indian consumers raced to an almost eight-year high of 7.8% in April, from 6.95% in March, with rural inflation **accelerating** to 8.4%, and urban shoppers experiencing an almost 1 percentage point **month-on-month** quickening at 7.1%, data released by the National **Statistical** Office. Food costs led the **surge** with inflation measured by the Consumer Food Price **Index** (CFPI) jumping to a 17- month high of 8.4% from March's 7.7%. Food prices **rose** at a faster clip of 8.5% in rural India. This is the fourth month in a row that retail inflation has remained above 6%, which is the upper tolerance **threshold** for inflation under the **monetary policy framework**.

ARTICLE

Economists said the sharp **acceleration** in retail inflation explained the central bank's **rush** to raise interest rates in an off-cycle meeting last week, adding that the move was likely to be **backed** by another rate increase in the coming policy review next month.

Crude price surge

“Driven by continued **global** crude price **upsurge** which **impacts food**, fuel and light, and transport and communication prices in the CPI basket, India's April 2022 CPI inflation turned out to be a 95-month high of 7.8%,” noted India chief policy advisor D.K. Srivastava. “It was **way back** in May 2014 that CPI inflation was at 8.3%,” Mr. Srivastava **recalled**.

ARTICLE

Rural inflation was also at an eight-year high, while several items reported the highest levels in a long time, India Ratings economists Sunil Kumar Sinha and Paras Jasrai wrote in a note. This included miscellaneous goods and services (at a 115-month high at 8.03%) and education, which was at a 23-month high. Inflation in health services was staying above 6% for 16 months now, they pointed out.
