GST collections jumped 44% to almost ₹1.41 lakh crore in May

Revenue check | India's goods and services tax collections crossed the ₹1.4 lakh crore mark for the third consecutive month in May 2022. The revenues were 44% higher than a year earlier

ARTICLE

Gross Goods and Services Tax (GST) **revenues** in May **rose** 44% from a year earlier to ₹1,40,885 crore, with receipts from **domestic** transactions and services **imports** rising at a **matching pace**, while goods imports **yielded** 43% higher taxes. “This is only the fourth time the monthly GST collection crossed ₹1.4 lakh crore mark since the **inception** of GST and the third month **at a stretch** since March 2022,” the Finance Ministry said. Explaining the **month-on month dip** in GST revenues from April’s record ₹1.67 lakh crore, the Ministry said the receipts in May were for transactions undertaken in April, and had ‘always been lesser’ than April’s GST revenues. GST collections in April reflected the returns filed in March, **pertaining** to the financial year closing, the Ministry noted.

“However, it is **encouraging** to see that even in the month of May 2022, the gross GST revenues have crossed the ₹1.4 lakh crore mark. Total number of e-bills generated in... April 2022 was 7.4 crore, which is 4% lesser than 7.7 crore bills generated in the month of March 2022,” the Ministry said in a statement. April’s figure was higher than May, as it included taxpayers filing their quarterly based taxes as well, explained Mahesh Jaising, partner and leader (Indirect Tax) at Deloitte India. Revenue growth from domestic transactions, including imports of services, **outpaced** revenues from goods imports after several months in May. In April, for instance, revenues from domestic transactions rose 17%, while goods imports yielded a 30% **uptick**.

ARTICLE

Of the total revenue in May, Central GST collections were ₹25,036 crore, State GST ₹32,001 crore, and **Integrated** GST ₹73,345 crore, which **included** ₹87,469 crore from import of goods.
