# **REARRANGEMENT OF SENTENCES PART 1**

## TIPS & TRICKS

Reading

Read the jumbled sentences with proper focus and at least twice.

This will help you to identify the theme of the paragraph and thus it will be easier to arrange the sentences afterwards.

Sometimes the first sentence is constant, this makes it easy to identify the sequence of the lines. In case there are no starting sentences, you have to identify the first sentence. You can also opt for the elimination method by removing the wrong choices and from the remaining sentences choose the correct one.

## TIPS & TRICKS

Always remember most of the sentences **will start with a fact, issue, idea, narration, quote.**

After fixing your first sentence, **move on to the body of the paragraph.** It should mainly include more information about the topic, issues, or problems.

To complete the whole paragraph **you will need a conclusion.** The last sentences will include feedback, comment, suggestions, etc.

It is always advised to connect one sentence to another, **connecting the dots** will help you to solve the sentence rearrangement easily.

## TYPES

**In the basic first type of sentence rearrangement, 4-5 sentences will be provided in jumbled-up form & all the applicants have to rearrange them in the correct sequence.**

**In the second variation, the first sentence will be fixed & other sentences will have to be arranged in a way that the first sentence doesn't move & the whole paragraph is relevant.**

## TYPES

**This is another form of sentence rearrangement in which there is a fixed sentence and the remaining sentences have to rearrange logically that the constant sentence doesn't move from its designated place in the paragraph.**

**The fourth variation is a mixture of the second & third ones. In this variation, the first & last sentences are constant & other sentences have to be rearranged.**

In the given question, a statement divided into different segments is given, not necessarily in the correct order.  
Rearrange the segments to form a coherent statement  
and mark the correct sequence as your answer.

A) but also the urban areas and fertile lands of Belagavi in Karnataka, 2
