Student evaluation after a __ (c) __ pandemic year remains a challenge in all countries, and many have opted for a hybrid system of school level internal assessments combined with any examinations that may have been held. The CBSE scheme, evolved to fulfil a Supreme Court mandate, distributes score weightage across the Class 10 public examination, the Class 11 annual test, and the Class 12 school tests in a 30:30:40 ratio for theory, and actual score for internal assessment and practicals. This aims to level out any __ (d) __ phase in a student's performance. Since the marks considered from Class 10 will be the average of the best three subjects among five, students must feel reassured.

When they wrote that examination, they had no inkling of the future importance of the score. Successful conclusion of Class 12 assessment, which lacks the standardisation available in a public examination, and _____ (f) _____ of results by July 31 depend on result committees marking the theory segment transparently and moderating marks for the senior secondary years based on the school's performance over a period of time.
