Directions: In the following passage, there are blanks, each of which has been numbered.

These numbers are printed below the passage and against each, five words are suggested, one of which fits the blank appropriately. You have to identify that word and mark as your answer.

Once, there were 29. Now at least one is gone, maybe three.

Those that remain are almost half the size they used to be.

Mount Rainier is 1 its glaciers. That is all the more

2 as it is the most glacier-covered mountain in the

3 United States. The changes reflect a/an

4 global reality: Mountain glaciers are 5 as

the burning of fossil fuels heats up Earth's atmosphere.

According to the World Glacier Monitoring Service, total

glacier area has shrunk 6 in the last half-century;

some of the 7 declines have been in the Western

United States and Canada.

Mount Rainier National Park, a popular tourist destination in Washington that gets roughly 2 million visitors every year, is feeling the effects 8. Wildflowers, among its main summer attractions, are blossoming at odd times. The season for climbing the 14,000-foot summit is shorter. Douglas firs are climbing down the mountain slopes to areas where there is less snow than before. Rocks are 9 down from the 10 glaciers, wiping out old-growth forests, changing the course of rivers, and most importantly for the National Park Service, flooding roads that it is supposed to maintain so tourists can drive in and enjoy its wilderness.

Once, there were 29. Now at least one is gone, maybe three.

Those that remain are almost half the size they used to be.

Mount Rainier is 1 its glaciers. That is all the more 2 as it is the most glacier-covered mountain in the 3 United States.

Which of the following appropriately fits in Option 1?

- A. Leaving
- B. Loosening
- C. Losing
- D. Leaning
- E. Levelling

Once, there were 29. Now at least one is gone, maybe three.

Those that remain are almost half the size they used to be.

Mount Rainier is 1 its glaciers. That is all the more
 2 as it is the most glacier-covered mountain in the
 3 United States.

Which of the following appropriately fits in Option 2?

- A. Struggling
- B. Striking
- C. Streaming
- D. Stemming
- E. Seeming

Once, there were 29. Now at least one is gone, maybe three.

Those that remain are almost half the size they used to be.

Mount Rainier is 1 its glaciers. That is all the more 2 as it is the most glacier-covered mountain in the 3 United States.

Which of the following appropriately fits in Option 3?

- A. Contiguous
- B. Contagious
- C. Continuous
- D. Duplicitous
- E. Vivid

The changes reflect a/an 4 global reality: Mountain glaciers are 5 as the burning of fossil fuels heats up Earth's atmosphere.

Which of the following appropriately fits in Option 4?

- A. Obvious
- B. Forgotten
- C. Subtle
- D. Stark
- E. Likely

The changes reflect a/an 4 global reality: Mountain glaciers are 5 as the burning of fossil fuels heats up Earth's atmosphere.

Which of the following appropriately fits in Option 5?

- A. Agitated
- B. Vanishing
- C. Firming
- D. Numbing
- E. Altering

According to the World Glacier Monitoring Service, total glacier area has shrunk 6 in the last half-century; some of the 7 declines have been in the Western United States and Canada.

Which of the following appropriately fits in Option 6?

- A. Steadily
- B. Utterly
- C. Barely
- D. Cautiously
- E. Briskly

According to the World Glacier Monitoring Service, total glacier area has shrunk 6 in the last half-century; some of the 7 declines have been in the Western United States and Canada.

Which of the following appropriately fits in Option 7?

- A. Longest
- B. Most shallow
- C. Loudest
- D. Effective
- E. Steepest

Mount Rainier National Park, a popular tourist destination in Washington that gets roughly 2 million visitors every year, is feeling the effects 8.

Which of the following appropriately fits in Option 8?

- A. Acutely
- B. Slightly
- C. Briskly
- D. Scarcely
- E. Subsequently

Rocks are 9 down from the 10 glaciers, wiping out old-growth forests, changing the course of rivers, and most importantly for the National Park Service, flooding roads that it is supposed to maintain so tourists can drive in and enjoy its wilderness.

Which of the following appropriately fits in Option 9?

- A. Logging
- B. Tumbling
- C. Turning
- D. Boggling
- E. Longing

Rocks are 9 down from the 10 glaciers, wiping out old-growth forests, changing the course of rivers, and most importantly for the National Park Service, flooding roads that it is supposed to maintain so tourists can drive in and enjoy its wilderness.

Which of the following appropriately fits in Option 10?

- A. Redeeming
- B. Revamping
- C. Retrieving
- D. Reflecting
- E. Retreating
