3. Only B-D
4. Both A-D and B-C
5. No arrangement required

Directions : In the following passage there are blanks, each of which has been numbered. These numbers are printed below the passage and against each, five words are suggested, one of which fits the blank appropriately. Find out the appropriate words.

The 1 of the universe has long been a topic of fascination for scientists and philosophers alike. In recent years, astronomers have discovered a large number of 2 planets orbiting other stars, leading to renewed interest in the possibility of 3 life beyond Earth. However, the search for extraterrestrial life is complicated by a number of 4 factors, including the vast distances between stars and the 5 nature of life itself. Nevertheless, scientists remain optimistic that 6 evidence of alien life may be found in the future.

In the meantime, efforts to understand the origins and evolution of life on Earth continue, with 7 research shedding new light on the complex interplay of chemical and biological 8 that led to the emergence of life on our planet. As we learn more about the diversity and resilience of life on Earth, we may gain a deeper appreciation for the 9 of our own planet and the importance of 10 its delicate balance.

The   1   of the universe has long been a topic of fascination for scientists and philosophers alike. In recent years, astronomers have discovered a large number of   2   planets orbiting other stars, leading to renewed interest in the possibility of   3   life beyond Earth.

1. Which of the following fits the blank labeled (1) ?

- A. Phenomenon
- B. Enigma
- C. Conjecture
- D. Mystery
- E. Anomaly

The   1   of the universe has long been a topic of fascination for scientists and philosophers alike. In recent years, astronomers have discovered a large number of   2   planets orbiting other stars, leading to renewed interest in the possibility of   3   life beyond Earth.

2. Which of the following fits the blank labeled (2) ?

- A. Asteroids
- B. Moons
- C. Exoplanets
- D. Comets
- E. Nebulae

The   1   of the universe has long been a topic of fascination for scientists and philosophers alike. In recent years, astronomers have discovered a large number of   2   planets orbiting other stars, leading to renewed interest in the possibility of   3   life beyond Earth.

3. Which of the following fits the blank labeled (3) ?

- A. Extraterrestrial
- B. Subterranean
- C. Terrestrial
- D. Interstellar
- E. Interplanetary

However, the search for extraterrestrial life is complicated by a number of 4 factors, including the vast distances between stars and the 5 nature of life itself. Nevertheless, scientists remain optimistic that 6 evidence of alien life may be found in the future.

4. Which of the following fits the blank labeled (4)?

- A. Facilitating
- B. Mitigating
- C. Exacerbating
- D. Simplifying
- E. Complicating

However, the search for extraterrestrial life is complicated by a number of 4 factors, including the vast distances between stars and the 5 nature of life itself.

Nevertheless, scientists remain optimistic that 6 evidence of alien life may be found in the future.

5. Which of the following fits the blank labeled (5)?

- A. Simple
- B. Uniform
- C. Predictable
- D. Complex
- E. Heterogeneous

However, the search for extraterrestrial life is complicated by a number of 4 factors, including the vast distances between stars and the 5 nature of life itself.

Nevertheless, scientists remain optimistic that 6 evidence of alien life may be found in the future.

6. Which of the following fits the blank labeled (6)?

- A. Speculative
- B. Conclusive
- C. Ambiguous
- D. Equivocal
- E. Definitive

In the meantime, efforts to understand the origins and evolution of life on Earth continue, with 7 research shedding new light on the complex interplay of chemical and biological 8 that led to the emergence of life on our planet.

7. Which of the following fits the blank labeled (7)?

- A. Interdisciplinary
- B. Specialized
- C. Theoretical
- D. Empirical
- E. Practical

In the meantime, efforts to understand the origins and evolution of life on Earth continue, with 7 research shedding new light on the complex interplay of chemical and biological 8 that led to the emergence of life on our planet.

8. Which of the following fits the blank labeled (8)?

- A. Systems
- B. Mechanisms
- C. Phenomena
- D. Processes
- E. Interactions

As we learn more about the diversity and resilience of life on Earth, we may gain a deeper appreciation for the   9   of our own planet and the importance of   10   its delicate balance.

9. Which of the following fits the blank labeled (9)?

- A. Resilience
- B. Robustness
- C. Fragility
- D. Durability
- E. Tenacity

As we learn more about the diversity and resilience of life on Earth, we may gain a deeper appreciation for the   9   of our own planet and the importance of   10   its delicate balance.

10. Which of the following fits the blank labeled (10)?

- A. Advancing
- B. Sustaining
- C. Prolonging
- D. Cultivating
- E. Maintaining
