Directions: Below are some statements, given in a random order. When these statements are sequenced properly, they'll form a coherent and meaningful paragraph.

P. As the two original members of the ICC (International Cricket Council now), they had the power of veto.

Q. Still, England saw it as a moral responsibility to take the game to the colonies.

R. In the days when there was no money in cricket, England, part of a colonial power, and Australia, a largely white colony, ruled the game.

S. Perhaps they needed teams they thought they could beat and it was a way of inculcating certain values in the locals.

T. It was a skewed system.

Correct Order- RPTQS

P. Astonishing change is underway in Africa, where the population is projected to nearly double to 2.5 billion over the next quarter-century — an era that will not only transform many African countries, experts say, but also radically reshape their relationship with the rest of the world.

Q. But Africa's baby boom continues apace, fueling the youngest, fastest growing population on earth.

R. In 1950, Africans made up 8 percent of the world's people.

S. A century later, they will account for one-quarter of humanity, and at least one-third of all young people aged 15 to 24, according to United Nations forecasts.

T. Birthrates are tumbling in richer nations, creating anxiety about how to care for, and pay for, their aging societies.

Correct Order- PTQRS

Directions : In the following passage there are blanks, each of which has been numbered. These numbers are printed below the passage and against each, five words are suggested, one of which fits the blank appropriately. Find out the appropriate words.

Agriculture is the **A** of human civilization, providing sustenance and the foundation for societal development. It encompasses a wide range of practices, from cultivating crops and raising **B** to the development of cutting-edge technologies in precision farming. In today's world, agriculture faces the dual challenge of meeting the ever-growing demand for food, while also striving to do so **C** . Sustainable agriculture practices aim to preserve the environment, protect **D** and ensure the welfare of farmworkers, all while delivering the necessary nourishment for a global population that continues to expand. Innovations in agriculture, such as genetically modified crops and **E** in agriculture, are revolutionizing the field, offering the promise of increased yields and reduced resource use.

Agriculture is the **A** of human civilization, providing sustenance and the foundation for societal development.

Which of the following appropriately fits in Option A?

1. Lifeline
2. Backbone

1. Both a and c

2. Only b

3. Only a

4. Only c

5. All of a, b and c

Sustainable agriculture practices aim to preserve the environment, protect **D** and ensure the welfare of farmworkers, all while delivering the necessary nourishment for a global population that continues to expand.

Which of the following appropriately fits in Option D?

a. prosperity

b. biodiversity

c. monotony

1. Both a and c

2. Only b

3. Only a

4. Only c

5. All of a, b and c

Innovations in agriculture, such as genetically modified crops and **E** in agriculture, are revolutionizing the field, offering the promise of increased yields and reduced resource use.

Which of the following appropriately fits in Option E?

a. traditional

b. rudimentary

c. precision

1. Both a and c

2. Only b

3. Only a

4. Only c

5. All of a, b and c

No sooner had the sun disappeared behind the layers of clouds in the western skies than a strange intoxicating **A** sneaked into my small, unassuming cottage in Varanasi. The Ganga was hardly about 50 metres from my modest dwelling. The perfume was irresistible, and I immediately set out in search of its **B**. When I reached under a dense tree about 20 metres away, it seemed as if my whole existence had come to a standstill with a mixed feeling of awe, joy and **C**. The source of intoxication was precisely there, close to the tree. Or, perhaps the tree itself was the **D** of this heady scent! There it was! The Saptaparni tree (blackboard tree, *Alstonia scholaris*) with its neonate buds, their faces turned towards the Ganga humming a nascent **E** for the river.

No sooner had the sun disappeared behind the layers of clouds in the western skies than a strange intoxicating A sneaked into my small, unassuming cottage in Varanasi.

Which of the following appropriately fits in Option A?

a. fragrance

b. melody

c. Emotion

1. Both a and c

2. Only b

3. Only a

4. Only c

5. All of a, b and c

The Ganga was hardly about 50 metres from my modest dwelling. The perfume was irresistible, and I immediately set out in search of its **B**.

Which of the following appropriately fits in Option B?

a. destination

b. source

c. Journey

1. Both a and c

2. Only b

3. Only a

4. Only c

5. All of a, b and c

When I reached under a dense tree about 20 metres away, it seemed as if my whole existence had come to a standstill with a mixed feeling of awe, joy and **C**.

Which of the following appropriately fits in Option C?

a. despair

b. indifference

c. Curiosity

1. Both a and c

2. Only b

3. Only a

4. Only c

5. All of a, b and c

The source of intoxication was precisely there, close to the tree.

Or, perhaps the tree itself was the **D** of this heady scent! There it was!

Which of the following appropriately fits in Option D?

a. creator

b. manipulator

c. destroyer

1. Both a and c

2. Only b

3. Only a

4. Only c

5. All of a, b and c
