Directions: Please read the passage carefully and answer the questions that follow:

The impact of artificial intelligence and robotics on employment opportunities have always been a topic of much speculation. When it comes to ___ (A) ___ and manipulating data, processing complex mathematical problems, and executing tasks in the ___ (B) ___, AI and robotics are the most preferred choice. As a result, AI has penetrated almost every industry, from construction, transport, and manufacturing to business intelligence, education, and healthcare. It is, therefore, not surprising that many Silicon Valley figures, including Facebook CEO Mark Zuckerberg, believe that not only can artificial intelligence support and enhance existing jobs, but it can also create new roles. A report generated by Gartner suggests that by 2020, AI would ___ (C) ___ an estimated 2.3 million jobs. This figure was calculated by taking into account the 1.8 million jobs made simpler by automation.

However, like any other ___ **(D)** ___, when it comes to domain skills, AI and robotics also require dedicated training courses. This has spurred the need ___ **(E)** ___ artificial intelligence courses, thus preparing professionals for a new wave of change brought about by innovations in robotics and artificial intelligence. The AI and robotics sector never fail to ___ **(F)** ___ people with innovations. Tasks that used to be considered extremely complex until previously have now been rendered simple, thus giving professionals a broader space to focus on other tasks. In addition to this, the proliferation of AI techniques has yet another ___ **(G)** ___; as the number of AI and robotics devices increase, so will the need for job roles to support and maintain their functioning. As a result, there will be a demand for professionals who ___ **(H)** ___ robotics and AI at every stage of the development cycle. This amounts to at least a two-thirds increase in the current job scenario.

The impact of artificial intelligence and robotics on employment opportunities have always been a topic of much speculation. When it comes to ___ **(A)** ___ and manipulating data, processing complex mathematical problems, and executing tasks in the ___ **(B)** ___, AI and robotics are the most preferred choice.

1. Which of the following fits in the blank labelled (A)?

- A. Organising
- B. Adjusting
- C. Rejecting
- D. Replacing
- E. None of the above

The impact of artificial intelligence and robotics on employment opportunities have always been a topic of much speculation. When it comes to ___ **(A)** ___ and manipulating data, processing complex mathematical problems, and executing tasks in the ___ **(B)** ___, AI and robotics are the most preferred choice.

2. Which of the following fits in the blank labelled (B)?

- A. Far cry
- B. Blink of an eye
- C. Caught between two stools
- D. Heat of a moment
- E. None of the above

A report generated by Gartner suggests that by 2020, AI would
___ (C) ___ an estimated 2.3 million jobs.

3. Which of the following fits in the blank labelled (C)?

- A. Discover
- B. Maintain
- C. Generate
- D. Implement
- E. None of the above

However, like any other ____ **(D)** ____, when it comes to domain skills, AI and robotics also require dedicated training courses.

4. Which of the following fits in the blank labelled (D)?

- A. Equipment
- B. Technology
- C. Technological
- D. Advanced
- E. None of the above

This has spurred the need ___ **(E)** ___ artificial intelligence courses, thus preparing professionals for a new wave of change brought about by innovations in robotics and artificial intelligence.

5. Which of the following fits in the blank labelled (E)?

- A. For
- B. At
- C. In
- D. Of
- E. None of the above

The AI and robotics sector never fail to ___ **(F)** ___ people with innovations.

6. Which of the following fits the blank labelled (F)?

A. Impress

B. Involve

C. Demand

D. Supported

E. None of the above

In addition to this, the proliferation of AI techniques has yet another ___ **(G)** ___ ; as the number of AI and robotics devices increase, so will the need for job roles to support and maintain their functioning.

7. Which of the following fits the blank labelled (G)?

- A. Benefit
- B. Bane
- C. Explore
- D. Amount
- E. None of the above

As a result, there will be a demand for professionals who ___ (H) ___ robotics and AI at every stage of the development cycle. This amounts to at least a two-thirds increase in the current job scenario.

8. Which of the following fits blank labelled (H)?

- A. Receive
- B. Understand
- C. Consider
- D. Simple
- E. None of the above

Directions:
