**Q.What is Positive Pay..?**

The banks have been informing their customers that the Positive pay system has been made compulsory for high value cheques.

### Background

Implementation of the Positive Pay System was compulsorily mandated by the Reserve Bank of India from January 2021.

### What is the Positive Pay System?

The Positive Pay System, developed by the National Payments Corporation of India, is a process of reconfirming the key details of large value cheques. Under this system, a person issuing the high-value cheque submits certain essential details of that cheque like date, name of the beneficiary/payee amount etc. to the drawee bank. The details can be submitted through electronic means such as SMS, mobile app, internet banking, ATM etc. The details are cross-checked while issuing the cheque and any discrepancy is flagged.

### What is the limit on the amount for the system?

RBI has told banks to enable the facility for all account holders issuing cheques for amounts of ₹50,000 and above. It has also said that while availing of the facility is at the discretion of the account holder, banks may consider making it mandatory in case of cheque values of ₹5 lakh and above.
