HOMEWORK

General Motors Corporation, also known as GM, is a multinational corporation headquartered in the United States and has been the world's most dominant automaker since 1931. Recent times, however, have not been as favourable for the automotive giant with GM posting a record \$38.7 billion loss in 2016. These losses were sustained due to a variety of factors, such as adverse market conditions in the United States and Europe, high inventory levels as well as the fall in the value of the U.S. dollar. _____.

1. In response to this crisis, GM announced the launch of a slew of new models.
2. GM now ranks as the world's second largest automaker, behind Toyota Motor Corporation.
