OUSTED

Meaning : forcefully remove or expel someone from a position, place, or situation

Synonyms: Expelled , Ejected

Antonyms: Welcomed ,
Admitted

POS : Verb
Sentence : The shareholders voted to oust the CEO due to allegations of financial misconduct.

Mr. Khan's political troubles began to mount.

The government's actions are excessive by any measure. The case Mr. Khan has been arrested for is just one amidst about 100 cases he has been charged in ever since he was ousted from office in April 2022. Apart from the litany of legal cases against him and his family, there has been a systematic attempt to prosecute leaders of his party, the Pakistan Tehreek-e-Insaf. In addition, cases of terrorism, sedition and blasphemy against Mr. Khan and his colleagues indicate there could be more serious sentences to follow. At the same time, his ouster from power and the cases have not visibly challenged his popularity in Pakistan, going by the by-election results last October, and the anger after his arrest in May. In that sense, the fact that his conviction and arrest in the latest case were not accompanied by similar protests is not an achievement for Pakistan's government, but demonstrates the effectiveness of its establishment in silencing public expression. None of this augurs well for Pakistan's democracy.

AUGURS

Meaning : people who predict or forecast future events.

Synonyms: Seers , Diviners

Antonyms: Realists

POS : Noun

Sentence : The political leader sought the advice of the local augurs before making a critical policy

According to the new claim, LK-99 fits the bill. It is copper-substituted lead **apatite**. While there have been quite a few claims in the last century of scientists having discovered room-temperature superconductors, LK-99 has triggered more excitement, presumably because the group's pre-print papers are free to access, include some data pointing in the right direction, and contain instructions to synthesise it and test its properties.

Synonyms: **Premises ,**

Theories

POS : **Verb, Noun**
